

A structural age-reversal in return migration — older Ukrainians returning while youth remain abroad — threatens Ukraine's long-term innovation and workforce renewal capacity, making targeted youth-focused return programs like Create Ukraine and NAUKA critically urgent.

A structural age-reversal in return migration — older Ukrainians returning while youth remain abroad — threatens Ukraine's long-term innovation and workforce renewal capacity, making targeted youth-focused return programs like Create Ukraine and NAUKA critically urgent.

RETURN

New Call: Returning Experts for Ukraine's Recovery – NAUKA

The NAUKA program invites highly qualified specialists from the Ukrainian diaspora to return and contribute to Ukraine's recovery, transferring modern knowledge and international experience into domestic institutions and projects.

3R: Directly operationalizes the Return pillar by creating a formal government-backed channel for diaspora expert reactivation tied to reconstruction priorities.

NAUKA (UKRDIASPORA.NAUKA.GOV.UA)

Create Ukraine – KSE Foundation

Create Ukraine was launched by KSE Foundation to bring Ukrainian professionals aged 22+ back home, enabling them to apply internationally acquired skills and global best practices to Ukraine's rebuilding and economic development.

3R: Targets the critical youth demographic that IOM and CES data show is least likely to return, making it a strategic intervention in reversing the generational brain drain.

KSE FOUNDATION (FOUNDATION.KSE.UA)

Diaspora Engagement and Facilitating Voluntary Return – MSP Ukraine / URC 2026

A dedicated side event at the Ukraine Recovery Conference 2026 focused on cooperation with Ukrainians abroad, addressing voluntary return facilitation and diaspora engagement as central pillars of Ukraine's human capital recovery strategy.

3R: Signals high-level political commitment to Return and diaspora reactivation at a flagship international recovery forum, indicating policy momentum beyond individual programs.

MINISTRY OF SOCIAL POLICY OF UKRAINE (MSP.GOV.UA)

Ukraine is Home – Information Platform for Potential Returnees

The Ukraine is Home platform provides practical guidance for Ukrainians considering return, covering documentation requirements, available services, and security situation assessments to support informed decision-making.

3R: Addresses a key friction point in the return journey — information asymmetry — by providing a centralized, practical resource that lowers the barrier to return consideration.

UKRAINE IS HOME (UKRAINEISHOME.ORG)

UKRAINE RETURNS REPORT – IOM DTM

IOM's displacement tracking data reveals gender-differentiated barriers to sustainable return: male returnees disproportionately report insufficient access to income-earning opportunities, pointing to structural economic obstacles that undermine return sustainability beyond security concerns.

3R: Provides evidence-based insight into why return rates remain low and what structural interventions (job creation, economic integration) are needed to convert initial returns into permanent reintegration.

IOM DTM (DTM.IOM.INT)

RECRUIT

Ukraine: Luring the Talented to Come Home – CEPA

CEPA analysis argues Ukraine's future depends not only on winning the war but on convincing young talented people to return, framing talent recruitment and return as a national security and economic competitiveness imperative.

3R: Frames talent recruitment from diaspora as a strategic national priority, elevating the Recruit pillar beyond HR management to geopolitical and developmental significance.

CEPA (CEPA.ORG)

Ukraine House in Denmark – Roundtable on Recovery and Diaspora Communities

A roundtable discussion in Denmark brought together speakers to explore Ukraine's recovery and the strategic role diaspora communities abroad can play, signaling active diaspora network mobilization as a talent and expertise recruitment channel.

3R: Demonstrates community-level diaspora activation in a high-skilled refugee host country (Denmark), creating local recruitment pipelines for Ukraine's reconstruction workforce needs.

RETAIN

Ukrainian Refugees After Four Years Abroad – CES Fifth Wave of Research

CES research tracking 5.6 million Ukrainian refugees still abroad reveals a critical demographic inversion: young people are predominantly staying overseas while older cohorts are returning to Ukraine, signaling a severe and worsening youth brain drain that threatens long-term workforce renewal.

3R: Provides the most critical Retain signal of the week: Ukraine is failing to retain its most economically productive demographic cohort, with the age structure of returns worsening the human capital deficit rather than alleviating it.

CES UKRAINE (CES.ORG.UA)

GLOBAL CONTEXT

Ukraine House Davos 2026 – Global Community Response to War

Ukraine House returns to the World Economic Forum in Davos 2026 to unify and inform the global community's response to Russia's war, serving as a flagship platform for positioning Ukraine's recovery — including human capital — in front of global decision-makers and investors.

3R: Provides the international diplomatic and investment context within which Ukraine's human capital programs operate, as global perceptions of Ukraine's stability directly influence diaspora return decisions and international talent recruitment.
