

Ukraine faces compounding human capital pressures: 510,000 diaspora in the US face TPS uncertainty, IOM data shows continued displacement, while return projections of 1.3–2.2M remain conditional on security. Targeted programs for women veterans and relocated communities signal emerging retention infrastructure. Green skills and R&D; tax incentives offer strategic recruitment levers.

TPS expiration for Ukrainian immigrants in the US (October 2026) creates a narrow return-activation window that Ukraine's diaspora engagement policy must urgently address.
