

# Ukraine's human capital landscape in W39 shows tension between diaspora reactivation efforts and persistent outflow risks. While corporate programs and ed-tech hiring signal domestic recovery, 8.6 million displaced Ukrainians remain abroad with safe return still out of reach. Military expertise export adds a new dimension to brain drain concerns.

Ukrainian military expertise is being absorbed by foreign defense sectors, creating a high-value, hard-to-reverse brain drain that policy has not yet addressed.
